

DIGITAL SECURITY FOR SENIOR CITIZENS

The DiSC project will support senior citizens to identify and protect against online threats and scams.

We need the support of all citizens to raise awareness of the most important skills to protect yourself in the fight against these digital security threats.

Get involved with DiSC Project: assess your own digital security knowledge and practice your skills using our online board game.

"Cybersecurity is a subject that requires logic, knowledge, thought and commitment"

Ian R. McAndrew
